San Jose, CA | +1 (201) 725-7992 | kathrotiyajenil3@gmail.com | [Linkedin](#) | [Portfolio](#)

Education

San Jose State University (In Progress)

Bachelor's, Data Science

August 2024 – December 2027

Current GPA: 3.52

RMG Maheshwari English School

High School Graduate

July 2020 – July 2022

GPA: 3.7

Professional Experience

University of Arizona

Design-Lab Intern

Tucson, AZ, USA

August 2023 – May 2024

- ▷ Gathered requirements from 10+ user groups to define project scope and turn ambiguous problems into actionable goals.
- ▷ Performed data analysis on survey responses to identify trends; found 80% of users faced the same core challenges.
- ▷ Designed and built a web-based toolkit that simplified complex tasks for non-technical users.
- ▷ Collaborated cross-functionally with designers and stakeholders, iterating on solutions through multiple feedback cycles.
- ▷ Owned the full project lifecycle from research to delivery, documenting processes for reproducibility and team knowledge sharing.

RMG Maheshwari English School

Lab Assistant

Surat, GJ, India

July 2020 – May 2022

- ▷ Collected, validated, and analyzed experimental data with a strong emphasis on accuracy, quality, and consistency.
- ▷ Followed strict procedures to ensure data integrity and repeatability, mirroring enterprise data standards.
- ▷ Interpreted results and communicated insights clearly to technical and non-technical audiences.
- ▷ Maintained detailed records supporting traceability and auditability for laboratory experiments.

Rotary Club Surat

Volunteer Coordinator

Surat, GJ, India

July 2020 – July 2022

- ▷ Managed volunteer database of 200+ individuals, ensuring accurate records and timely communication.
- ▷ Designed Excel-based analyses to identify trends and support operational decision-making for club activities.
- ▷ Took ownership of data processes, balancing multiple priorities and deadlines in a volunteer-driven organization.

Projects

Customer Churn Prediction API – [GitHub](#)

- ▷ Built and deployed a machine learning model to predict customer churn using Python and scikit-learn.
- ▷ Developed a FastAPI REST API to serve real-time predictions with low-latency response times.
- ▷ Implemented CI/CD pipeline with GitHub Actions and pytest unit tests to ensure code quality and reliability.
- ▷ Dockerized the application for portability and cloud-ready deployment on Docker Hub and Render.

HouseTS Housing Data Pipeline | Python, PySpark, GCP – [GitHub](#)

- ▷ Built an end-to-end data pipeline to clean and process 890K+ U.S. housing records at scale.
- ▷ Standardized malformed CSV data including ZIP codes, dates, prices, and NA values for consistency.
- ▷ Scaled processing using PySpark and Google Cloud Storage for distributed data handling.
- ▷ Analyzed long-term housing price trends across 6,000+ ZIP codes to uncover market insights.

Wine Quality Analysis – [GitHub](#)

- ▷ Conducted exploratory data analysis on 6,500+ wine samples to identify quality predictors.
- ▷ Performed Welch's two-sample t-tests with Cohen's d effect size and Pearson correlation analysis.
- ▷ Applied outlier detection using IQR method in R; identified alcohol content as primary quality predictor.

Technical Skills

Programming

Python, SQL, R, MATLAB, C, C++ Java, RUST, GO

Machine Learning & AI

scikit-learn, Clustering, Classification, Optimization Algorithms, Predictive Modeling, Recommendation Systems

Data Science & Analytics

Pandas, NumPy, PySpark, Data Wrangling, ETL Pipelines, A/B Testing, Root Cause Analysis, Statistical Modeling

Visualization & Tools

Tableau, Matplotlib, Excel, Git, GitHub, Docker, Google Cloud Platform, Jupyter Notebooks

Soft Skills

Critical Thinking, Analytical Problem-Solving, Cross-Functional Collaboration, Effective Communication.
